

Music Organizer Program v.9.23 Released

Thursday, 22 February 2007

Was released Music Organizer Program v.9.23.

Differences, related to previous versions:

The most important improvement of new Music Organizer Program version - is easy to use "Main Configuration" wizard.

It is shown after program installation and running at the first time automatically. New wizard will let users to start using Music Organizer Program in seconds. It help to define:

- source directory (folder, files from which Music Organizer Program will process: sort, rename, organize);
- database directory (folder, to which files will be moved or copied after processing);
- action (what to do with processed files: copy them from source directory to database, or move);
- registration (for users, who still did not registered their Music Organizer Program product copy, may do it now in automatical mode).

Last product version may be purchased in our online store. All registered Music Organizer Program users can get it for free.
